

Chemical Transportation ISO Seal Kits

ISO Valve Repair Kits for Chemical Transportation Solutions

Carolina Seal, Inc. is now a part of Trelleborg Sealing Solutions, allowing us to provide a range of solutions specifically focused on the demands of chemical transportation. Beyond supplying a component, our thorough understanding of the individual variables and challenges of fluid sealing management enable us to maximize product performance and minimize maintenance and repair time, delivering bottom line results. We are now pleased to offer complete ISO valve repair kits prepared specifically for the chemical transportation industry.

Before being kitted, each part is analyzed in our in-house quality control lab for material verification protection. Parts are then organized into individual, heat-sealed component packaging, which maximizes shelf life, eliminates contamination and prevents material mix-ups. For added convenience, more than 95% of orders are shipped the same day they are received.

Over the course of a decade, more than 300,000 kits have been produced without defects or quality complaints. We confidently offer 100% quality assurance, as well as full documentation and traceability to deliver increased safety and compliance assurance to both depot and shipper.

Complete Set of Solutions:

- Chemical Compatibility Analysis
- Same Day Shipments
- Optimal Material Selection
- 100% Incoming Batch Testing
- Maximum Shelf Life and Error Proof Packaging
- 100% Quality Assurance, Documentation and Traceability
- Best Practices Training, Resources and Tools
- Root Cause Failure Analysis and Reporting Services
- Quality Control Lab for Analysis

YOUR PARTNER FOR SEALING TECHNOLOGY

CHEMICAL TRANSPORTATION ISO SEAL KITS

Local Presence. Global Reach.

Trelleborg Sealing Solutions works effectively to provide solutions that leverage global expertise, but deliver it locally. With a global manufacturing footprint and worldwide distribution resources and kitting services, Trelleborg has the ability to provide parts within 48 hours.

Quality Assurance and Traceability

A unique compliance and traceability form is included in each kit we ship, offering 100% documentation and traceability on every seal within the kit.

SHIPPER INFORMATION

Shipper Name: JOHN DOE
 Container No.: 4245 25000
 Repair Date: 05/15/18
 Valve Manufacturer: MELIND
 Valve Model No.: J-324
 Valve Serial No.: IDENTIFIED ETHANOL
 Commodity (if known):
 Depot: CAROLINA SEAL CHEMICAL
 Depot Location: CHARLOTTE, NC
 Print Name: JOHN DOE
 Installer Signature: *John Doe*

ISO-BORING-EP787
 Tracing No. J-14518
 Shelf Life Expiration: SEPTEMBER 30, 2032

ISO-B51F2-GTF (COLLAR)
 Tracing No. AN-13320

ISO-B52-FTF (FLANGE BUSHING)
 Tracing No. AN-13322

ISO-B6F3-DTF (BEARING BUSHING)
 Tracing No. AG-13349

ISO-B11FF6-GTF (BALL SEAL)
 Tracing No. AN-13316

ISO-B11FF6-GTF (BALL SEAL)
 Tracing No. AN-13316

ISO-B13FA-DTF (BODY SEAL)
 Tracing No. AN-13333
